IV. The VGHL3 for season 6 will start with 2 conferences and 4 divisions.

V. Western Conference and Eastern Conference.

1.1.4 - If you do not have a full roster at game time you may be issued a penalty by the waiting team at the 5 minute mark of the grace period. Team must inform the team that is late they must take the penalty. Teams will still be given the regular 10 minute window to start the game before a forfeit can be called. If a team is unable to play the forfeit will be issued. NHL search window ends at :00:59:, :35:59:, :10:59. To claim a forfeit for failure to search within 10 minutes, a team must provide a pair of time stamped PSN screenshots showing a game search occurring within the open window and at the end of the window. Pictures are not required if the losing team claims a forfeit loss on the website using the Manager Control Panel or if an owner says his team forfeits in the official VGHL3 Discord servers Forfeit Channel that will be made for season 6. A screenshot of this will still need to be provided in the report a forfeit section on the site.

1.1.5 - Teams discussing the possibility of FF must do so following the VGHL3 game night rules. If a game is to be forfeited, it is to be posted in the appropriate area and no game shall be played that evening. If these rules are ignored, and a game is played, the game is official and no other decision can be made.

1.1.6 - If any team uses an illegal roster, the result will be a 1-0 regulation forfeit win for the opponent.

1.1.7 - The VGHL3 league office operates on Tuesday, Friday, & Saturday between 4-8pm Est.

1.1.8 - Teams must use the pin number generated by the website to search for a game using a club challenge. If the game code triggers EA censorship simply remove one of the digits causing the issue and communicate with your opponents management on the new code. Same applies if the VGHL website is down, please communicate with your opponent and come to an agreement on the code and resume with the game being played.

1.1.9 - The home team on the site selects home, and the away team selects away. The home team inputs the server selection of their choosing. The away team must select 'ANY' for server selection. If the away team refuses to follow these settings, and it is preventing the game from starting, they may be reported to the VGHL3 resulting in a forfeit loss. The VGHL3 requires time-stamped PSN screenshots showing correct settings and the match up screen.

1.1.10 - Only servers located in North America are eligible to be selected by the home team. During regular season play the home team will select a server with the away team selecting any.

1.1.11 - Playoff servers will be put on ANY by both teams. If a team backs out after matching due to not getting the server they want they will be issued a FF loss. No backing out is permitted due to poor connection.

1.1.12 - If a team has an issue with a game which has already started and requires staff assistance for a potential forfeit win, the team must stop playing the game and send their evidence to their league commissioner for review. Staff will not reverse the results of any game if teams continue to play the game out unless invalid rosters were used. If a team stops a game that has started because they feel that the other team has broken a rule, staff will review their evidence and decide which team shall receive the ff win. Partial games will not be restarted or rescheduled once they have been stopped for staff review.

1.1.13 - Any game that is not completed on the originally scheduled night, due to EA/PSN issues, and is not settled via forfeit, will be rescheduled to a new time, and starting at a 0-0 game. Stats, lineups, etc. will not be carried forward.

1.1.14 - A VGHL3 game officially begins with puck drop of the opening faceoff. At this time lineups are locked in and all applicable rules including disconnects, ECU's etc must be followed.

1.1.15 - All VGHL3 league teams must follow the following jersey colour scheme: Home Team = Dark Colours Away Team = Light Colours Games cannot be stopped, ended or restarted if Jersey Colours have been incorrectly applied and the game has already begun.

1.1.16 - Teams who agree to play past the 10 min grace period time without league approval, will receive no league assistance if it starts to affect regular scheduled game times.

1.1.17 - Any team found trolling, & ruining the integrity of official VGHL3 league games during game play will result in immediate discipline from the VGHL3 staff if reported by the opposing team. This discipline could result in forfeits, fines and or suspensions and blacklists from the league. This will not be tolerated.

1.1.18 - Players must use the original build they loaded into the game lobby with. If a player changes there in game build meaning they CAN NOT make any changes once loaded into the game lobby to their build as this may be reported as an illegal roster infraction, VGHL3 staff may hand out discipline upon further review of the reported infraction. If discipline is required it may range from forfeits, suspensions and possible blacklist.

1.1.19 - Truculence and Unstoppable Force may not be used in the VGHL3. Using these builds will result in an illegal roster player infraction and will result in discipline from the VGHL3 Staff

1.2 Disconnects (DC)

1.2.1 - If any player disconnects before the 2 minute mark of the start of the game or of the restarted game, the game is to be paused at the earliest whistle and is to be restarted. All play up to the whistle, including any cpu stats will still carry over into the restarted game.

There will be no penalty shot for this DC restart, and it will not count toward a player's limit of 2 disconnects.

1.2.2 - If a single skater disconnects after the 2 minute mark of the first period, or of the restarted game, the game must be played until the next period. During the intermission the teams must take stats and restart. Upon restarting, play CAN NOT RESUME until the disconnected player takes a DC penalty and awards the opposing team a penalty shot. The 1st period becomes the first period to be made up.

1.2.3 - If the goalie or two players from the same team have disconnected, the game is to be paused at the next available whistle. Each team is responsible for recording their stats and the time of the restart, then the game is to be restarted. All play up to the whistle will still be counted. If a goalie has disconnected then the team may choose who is to take the DC penalty. If players on both teams are disconnected then the penalties are voided and no team has to take a DC penalty. If two players from the same team have disconnected then the team that had the DC's may choose between the two for taking the penalty upon restart. If two players DC only one DC penalty shot has to be taken. All penalties that need to be taken will result in a penalty shot for the awarded team.

1.2.4 - If a player disconnects during an intermission (between periods), teams MUST continue into the next period and follow the above guidelines. Teams NEVER back-out and restart during intermission.

1.2.5 - Any stats accumulated by computer players will carry over into the restart.

1.2.6 - Teams have up to 10 minutes to restart the game after a DC. If a team cannot produce the same lineup, NHL teams must use an ECU. No player from the main roster shall fill in for the disconnected player. If an ECU is used, the ECU'd player must follow all ECU guidelines and the ECU will count as an official ECU. Any player replacing a DC'd player must replace that player in the exact same position which that player was playing before they DC'd.

1.2.7 - If a team is unable to restart the game after 10 minutes, the result will be a 1-0 regulation forfeit loss. If the DC occurred in OT and the team is unable to restart the game after 10 minutes then the result will be a 1-0 overtime forfeit loss.

1.2.8 - Any player that disconnects twice during one game is not allowed to play on the next restart. This will include load up disconnections. Teams must replace this player following guidelines set in Rule 1.2.6 or team management may fill in to replace the player. The ECU used must follow all ECU guidelines and the ECU will count as an official ECU. If any player can not reconnect after a lag out, that player may be replaced by management only if ECUs are not available.

1.2.9 - The team that has the player/player's DC must pause the game and backout. If they do not and continue to play passed the above guidelines the game will result in a forfeit loss.

1.2.10 - Each team is responsible for their own stats on restarted games.

1.2.11 - In the event of a DC, all players must continue with the player build selected in the original attempt. The opposing team is responsible to submit evidence to the VGHL3DC if this is violated. Infractions could result in an invalid roster and suspensions for those involved.

1.2.12 - If games are running late due to DC/lag outs and overlaps the next scheduled game time, teams will have a 10 minute window to gather and be ready to start the next game. If teams are not ready after the 10 minute window a forfeit may be called and awarded to the team that was ready as long as the proper proof is provided. (Example if the overlap game ends at 10:05pm you have until 10:15pm to be ready)

1.2.13 - If teams are having troubles connecting to games via EA issues an additional 15 mins will be given to connect from the last minute of grace time. If teams can not connect after 15 minutes the league will reschedule games and push them to the end of the season.

1.2.14 - If a game freeze or game loop occurs during a game, and the game is able to continue, the game must go on with whatever time and score that the score clock is showing after the freeze or loop. Any goals lost as a result of a freeze or loop will not count towards the official game score. If a game freezes before the game ends and stats are not able to be retrieved, the game must be restarted from the beginning of the game with a 0-0 score.

1.2.15 - Any DC that happens when teams match in the game lobby will count as a first official DC. If the same player DC's a second time after the restart that player will need to be replaced by an ECU. There is no backing out once you have matched.

1.2.16 - NHL games **MUST** be streamed by the home team. (Highly Recommended)

2.1.4 - Any player complaints should first be addressed by team management, followed by the VGHL3. These issues should not be addressed in the general population (e.g. chat box, Forums, Etc.). Players in the VGHL3 can contact the league commissioner or the league P.A rep.

2.2.2 - If a player is under suspension and has not served the entire term of the suspension once that player's season/playoffs have ended, the remaining games will be carried over to their following season.

2.2.3 - Players that are suspended are exempt from all game requirement rules.

2.3 Owner/Captain & Player Communication

2.3.1 - All players that play in the VGHL3 represent the league. All player names used must be respectful. If the VGHL3 finds a player's name to be disrespectful, the player will be suspended until he/she changes their name. To what some people find funny, some will find it offensive. Keep it Clean!

2.3.6 - A player is not allowed to act as a team manager in trade negotiations with other teams, posting transactions, or have any access to the Manager Control Panel under any circumstances. Sharing accounts will result in a possible fine and or suspension from the VGHL3.

2.3.7 - No Player or Manager is allowed to communicate with other team's players regarding league matters (availability, scheduling, transactions, etc.) other than to organise a game. The only exception is to offer management opportunities to expiring contracts in the off-season. This is considered tampering and the team/player accused will be penalised accordingly by the VGHL3.

2.3.8 - Management may speak to a player regarding the matters in 2.3.7. (availability, scheduling, transactions, etc.) if granted permission by a member of the player's management team.

Section 3 – Players Rights

3.1.1 - Players in the VGHL3 are obligated to meet the Minimum 2 Game Requirement per week. If a player CAN NOT for any reason then it is the PLAYER'S responsibility to inform their team management ahead of time so that the team can adjust the line-ups accordingly. They must give valid reasoning to the VGHL3 DC as to why they couldn't play to avoid discipline.

3.1.2 - If a player is unhappy on his/her team and wants to be traded or sent down, the player may request a trade. To file a trade request you must contact the league advisor, commissioner or PA representative. Players are limited to one trade request per contract year. The player will be contacted by the advisory board to go over the appeal process and answer any questions needed by the player before the case is brought to the league office for review. The player will have to submit a formal letter stating why you believe that you were initially given a **BL3** status as well as the reasons why you should be granted a return to the **VGHL3**. If your appeal is denied, you may submit a new appeal during the next off-season when the appeal process reopens.

3.4.2 - Players can **ONLY** appeal their suspensions if they notify their league commissioner before the office closes the night of the suspension. The player must then submit a written

document to the advisory board stating why they feel that their appeal should be reviewed. Appeals must be submitted to the advisory board within 24 hours from the time the suspension was posted. All submissions must be made via direct message on the VGHL3 website.

3.4.3 - If a player notifies their commissioner that they wish to appeal their suspension before the office closes on the night of their suspension, they will be allowed to play that night and may use the full 24 hours to prepare their written appeal. All submissions must be made via direct message on the VGHL3 website.

3.4.4 - Team managers must use the lineup tool every week to complete and submit their lines for the week. **THIS IS MANDATORY.** Full lineups must be FILLED in by Tuesday @ 8:50pm Est every week. Failure to do so, if found by staff, may result in warnings, fines and further discipline from the VGHL3 staff

3.5 Availability & Scheduling

3.5.1 - Players must use the lineup tool to submit their availability each week by Sunday at 4:00 PM EST. The number of games submitted must fall within the pre-selected weekly availability range on the gamer profile. All VGHL3 players are able to submit a FULL WEEK in advance. Managers are not required to but it is strongly recommended.

3.5.2 - Availability must be updated every week throughout the season by all players and managers via their gamer profile. Each block of games will be open one week early, and will be available from Sunday at 5:00 PM EST until the following Sunday at 4:00 PM EST. Changes may not be made to weekly availability after it is locked.

3.5.3 - If a player does not follow 3.5.1 & 3.5.2, and leaves a week blank, the player will receive a warning but will still be eligible to play for that week. This does not apply for ECU eligibility.

3.5.4 - If a player fails to submit lineup requests for two consecutive weeks, the player will be suspended. Management has the option to submit an inactive player claim to have this player removed. If a player misses two non-consecutive weeks, the player will be suspended and in-eligible to play. This does not apply for ECU eligibility

3.5.5 - If a player misses three non-consecutive weeks in one season, he or she will be blacklisted. If a player submits a request of any amount that falls below the selected weekly range, and is reported by his or her management to the VGHL, the same process will apply.

3.5.6 - Suspended players games must be replaced by an ECU. Main roster players CAN NOT be used to replace the suspended players minimum 2 games that week.

3.5.7 - Players registered in the VGHL3 must give a minimum 4 game availability. Failure to do so will have their right to be scheduled waived and if a player fails to

submit for 2 consecutive weeks they will be eligible for a blacklist depending on the teams management.

3.5.8 - Teams must still schedule their players for at least the minimum game requirement, even if no availability is submitted, players must give a valid reason with proof to their team owner and captain if they can not make their scheduled games. Failure to do so by the player could result in strikes given by their respective team and the league and be subject to a Blacklist for No Showing there Scheduled games.

3.5.9 - Any team found abusing these rules will result in a 250k fine towards the teams salary cap.

3.5.10 - If a player is scheduled by his or her team and is available to play but gets replaced, that player has the right to report their team to League Staff for further discipline.

3.5.11 - The VGHL3 will in the case that the site tools are not working will allow and approve NON edited discord screenshot of lineups and availability as long as they are submitted to the VGHL3 staff before Monday @ 12:00 am. This does not mean use discord only and not the site. This will only be allowed if the lineup and availability tools are not working and confirmed and announced by VGHL3 Staff.

3.5.12 - A player's availability is a rough idea as to how many games they are available per week. It is not set in stone as we have no max games. So if a player is available more then they have submitted they are eligible to play. (Example - A player selects 2-5 but happens to be available 5-9 last minute and after availability deadline they are eligible to play all 9 games)

3.5.13 - Practice roster players are required to give at least a minimum of 2 games availability for their assigned team to show they are active.
