Section 1 – Gameplay

1. General

1.1.1 Regular season and playoff games must be played 6 vs. 6. It is up to Team Management to make sure they have a full line-up at game time.

1.1.2 If a player quits on his/her team during a game, the player will be eligible for suspension at the discretion of the VGHLDC. Players caught quitting VGHL games to join games in a different league will face harsh suspensions and possible blacklisting.

1.1.3 VGKHL game times are listed below (Eastern Time). Teams may have up to 8 scheduled games in a week.

Sunday: 9:30 & 10:30

Monday: 9:30 & 10:30

Wednesday: 9:30 & 10:30

Thursday: 9:30 & 10:30

1.1.4 If you do not have a full roster at game time there will be a **10 minute window** to start the game. If a team is unable to play a forfeit will be issued. The search window ends at :39:59. To claim a forfeit for failure to search within 10 minutes, a team must provide a pair of time stamped PSN screenshots showing a game search occurring within the open window and at the end of the window. Pictures are not required if the losing team claims a forfeit loss on the website using the Manager Control Panel.

1.1.5 Teams discussing the possibility of FF must do so following the VGHL game night rules. If a game is to be forfeited, it is to be posted in the appropriate area and no game shall be played that evening. If these rules are ignored, and a game is played, the game is official and no other decision can be made.

1.1.6 If any team uses an illegal roster, the result will be a 1-0 regulation forfeit win for the opponent.

1.1.7 The VGKHL operates Sunday through Thursday.

1.1.8 Teams must use the pin number generated by the website to search for a game using club challenge. The home team on the site selects home, and the away team selects away. If the opposing team refuses to follow these settings and it is preventing the game from starting, they may be reported to the VGHL DC resulting in a forfeit loss. The VGHL DC requires time-stamped PSN screenshots showing correct settings and the match up screen.

1.1.9 If a team has an issue with a game which has already started and requires staff assistance for a potential forfeit win, the team must stop playing the game and send their evidence to the VGHLDC and their league commissioner for review . The staff will not reverse the results of any game if teams continue to play the game out unless invalid rosters were used. If a team stops a game that has started because they feel that the other team has broken a rule, the staff will review their evidence and decide which team shall receive the ff win. Partial games will not be restarted or rescheduled once they have been stopped for staff review.

1.1.10 Any game that is not completed on the original scheduled night, and is not settled via forfeit, will be rescheduled to a new time, and starting at a 0-0 game. Stats, lineups, etc. will not be carried forward.

1.1.11 A VGHL game officially begins with puck drop of the opening faceoff. At this time lineups are locked in and all applicable rules including disconnects, ECU's etc must be followed.

2. Disconnects (DC)-

1.2.1 If any player disconnects before the 2 minute mark of the start of the game or of the restarted game, the game is to be paused at the earliest whistle and is to be restarted. All play up to the whistle, including any cpu stats will still carry over into the restarted game. There will be no 2 minute DC penalty for this restart, and it will not count toward a player's limit of 2 disconnects.

1.2.2 If a single skater disconnects after the 2 minute mark of the first period, or of the restarted game, the game must be played until the next period. During the intermission the teams must take stats and restart. Upon restarting, play **CAN NOT RESUME** until the disconnected player takes a DC penalty and is in the penalty box. The 1st period becomes the first period to be made up.

1.2.3 If the goalie or two players from the same team have disconnected, the game is to be paused at the next available whistle. Each team is responsible for recording their stats and the time of the restart, then the game is to be restarted. All play up to the whistle will still be counted. If a goalie has disconnected then the team may choose who is to take the DC penalty. If players on both teams disconnected then the penalties are voided and no team has to take a DC penalty. If two players from the same team have disconnected then the team that had the DC's may choose between the two for taking the penalty upon restart. If two players DC only one DC penalty has to be taken.

1.2.4 If a player disconnects during an intermission (between periods), teams **MUST** continue

into the next period and follow the above guidelines. Teams **NEVER** back-out and restart during intermission.

1.2.5 Any stats accumulated by computer players will carry over into the restart.

1.2.6 Teams have up to 10 minutes to restart the game after a DC. If a Team cannot produce the same lineup, KHL Teams must use an ECU. Teams may use a player from their roster or an ECU. If an ECU is used, the ECU'd player must follow all ECU guidelines and the ECU will count as an official ECU. Any player replacing a DC'd player must replace that player in the exact same position which that player was playing before they DC'd.

1.2.7 If a Team is unable to restart the game after 10 minutes, the result will be a 1-0 regulation forfeit loss. If the DC occurred in OT and the team is unable to restart the game after 10 minutes then the result will be a 1-0 overtime forfeit loss.

1.2.8 Any player that disconnects twice during one game is not allowed to play in the next restart. Teams must replace this player following guidelines set in Rule 1.2.6. The ECU used must follow all ECU guidelines and the ECU will count as an official ECU.

1.2.9 If a team has any ongoing penalty time when a game must be restarted, the team is obligated to take that remaining time as well as the DC penalty.

1.2.10 The team that has the player/player's DC must pause the game and backout. If they do not and continue to play passed the above guidelines the game will result in a forfeit loss.

1.2.11 Each Team is responsible for their own stats on restarted games.

1.2.12 In the event of a DC, all players must continue with the player build selected in the original attempt. The opposing team is responsible to submit evidence to the VGHLDC if this is violated. Infractions could result in an invalid roster and suspensions for those involved.

3. Game Freezes and Game Loops

1.3.1 If a game freeze or game loop occurs during a game, and the game is able to continue, the game must go on with whatever time, penalty minutes and score that the score clock is showing after the freeze or loop. Any goals lost as a result of a freeze or loop will not count towards the official game score. If a game freezes before the game ends and stats are not able to be retrieved, the game must be restarted from the beginning of the game with a 0-0 score.

10.1.7 If teams decide to play more games in one night than originally scheduled, the series will advance accordingly and the next official time will become the next game in the series.

2. Rules

10.2.1 All teams will receive 1 reschedule per round. When a reschedule is used the league will push all games back by one slot (ie game 6 9:30, game 7 10:30). If both teams use their reschedules resulting in 3 games on Thursday, the official league times will be 9:30, 10:00, and 10:30. Reschedules may not be used on Thursday for any reason. The opposing team will receive credit for their players showing up if the guidelines are followed:

- Team line up must be posted using the lineup tool by Sunday 7:30pm ET.
- Adjustment lineups must be submitted 1 hour before the scheduled game time.
- A time stamped PSN screenshot of the teams line up must be taken within 10 minutes of the scheduled game time.
- A time stamped PSN screenshot must be submitted to the VGHLDC within 12 hours of the scheduled game time.
- *If any of the above conditions are not met, credit will not be awarded. There are no exceptions made for temporary website outages etc. If you are having difficulty submitting lineups prior to 7:30PM ET on Sunday, please contact your league commissioner for an alternate solution.*

10.2.2 If teams decide to play more games in one night than originally scheduled, the series will advance accordingly and the next official slot will become the next game in the series. **The league will not lock-in games if teams try to play early, and no reschedules are burned.**

10.2.3 Forfeited games will still count as a game played for the winning team as long as the guidelines are followed the same criteria as a regular season game.

10.2.4 Teams may call up players during the playoffs.

10.2.5 KHL teams may use up to 4 emergency call ups per playoff round from their practice roster. Emergency call ups will not affect a team's or roster space. Emergency call ups may be made at any time.

10.2.6 All KHL team management and all players on each regular roster (minimum of 10 players) must play at least 1 game by the end of the 4th game of the series. If a player has not played 1 game and the 4th game is played then that game will be forfeited. Teams will continue to forfeit subsequent games until these requirements are met.

10.2.7 Teams will be forced to forfeit games consecutively if they are out of re-schedules.

10.2.8 During the Playoffs transactions may be done, but they must stay within these guidelines:

- *Once a KHL team has been eliminated they may not sign free agents.*
- *Once a KHL team has been eliminated they may not drop any players.*

10.2.9 Managers may be placed on the IR during the playoffs.
